

## **Attention: Saturday Parties**

To assist you in cleaning our new electric BBQ you will find various cleaning products in the 2<sup>nd</sup> drawer

Cleaning is required after each use is required – allow 15 minutes :

- Remove grease tray, plate and grill and wash them in warm soapy water in the kitchen. You can use a bristle brush and detergent provided.
- Wipe the inside of the hood and outside with a warm soap cloth.
- Dry off with tea towel and restore all elements.
- Never use Wire wool pads, brushes, scouring materials, bleaches or harsh chemicals

If the BBQ is not cleaned your bond will be retained as we will need to use that to pay our cleaner to do this for you.

Should you have found the BBQ in a non-clean state please take a photo and send this to me so that your bond is not affected should you not be able to clean it properly.

If additional supplies are needed please let me know or write a comment in the diary in the play cottage.

Any issues email [parties@lnsp.com.au](mailto:parties@lnsp.com.au)

Thank you for your support.
